Climate Change and Human Health Literature Portal

Aspects to be considered in extreme-temperature prevention plans in the light of new research

Author(s): Montero JC, Linares C, Mirón IJ, Criado JJ, Díaz J

Year: 2010

Journal: Public Health. 124 (1): 37-38

Source: http://dx.doi.org/10.1016/j.puhe.2009.11.010

Resource Description

Communication: M

resource focus on research or methods on how to communicate or frame issues on climate change; surveys of attitudes, knowledge, beliefs about climate change

A focus of content

Communication Audience: M

audience to whom the resource is directed

Policymaker

Early Warning System:

resource focus on systems used to warn populations of high temperatures, extreme weather, or other elements of climate change to prevent harm to health

A focus of content

Exposure:

weather or climate related pathway by which climate change affects health

Temperature

Temperature: Extreme Cold, Extreme Heat

Geographic Feature: M

resource focuses on specific type of geography

None or Unspecified

Geographic Location: M

resource focuses on specific location

Non-United States

Climate Change and Human Health Literature Portal

Non-United States: Europe Health Impact: M specification of health effect or disease related to climate change exposure Injury Intervention: M strategy to prepare for or reduce the impact of climate change on health A focus of content Mitigation/Adaptation: **№** mitigation or adaptation strategy is a focus of resource Adaptation Population of Concern: A focus of content Population of Concern: M populations at particular risk or vulnerability to climate change impacts Elderly Other Vulnerable Population: Socially isolated Resource Type: M format or standard characteristic of resource Research Article Timescale: M time period studied Time Scale Unspecified Vulnerability/Impact Assessment:

☐

resource focus on process of identifying, quantifying, and prioritizing vulnerabilities in a system

A focus of content
